RE-OPESING OF THE GODERICH ROUTE -Our enterprising Goderich neighbors are again in the field. The fine staunch Propeller Sciola-GIL. TRAVERSE, Master Propeller Sciola—Gil. Traverse, Master
—takes the place of the Kaloolah, and
will make semi-weekly trips between the
ports of this river and Goderich. We
are pleased to learn that the enterprise are pleased to learn that the enterprise thus far promises to be handsomely remunerative. We congratulate the proprictors of the line upon having secured the services of so popular and efficient an officer as Capt. TRAVERSE-who is well and favorably known on this river, and will be sure to receive his full share of freight and passengers.

MILLER, of this city, aged about Il years, was burned in a shocking manner by her clothes taking fire. A fire had been kindled in the street around which several children were congregated, when the girl coming too near , her clothes caught Shop on Water Street, between Thompson and and lin a moment she was wrapped in flames. As soon as the fire caught in her garments she ran away from the house in the direction of the woods which were near by, and was pursued and caught by her mother who succeeded in extinguishing the flames, but not until her own hands and arms were badly burned. The little girls legs and back are burned to a the attending Physician, that hopes are entertained of her recovery, although she lies in a very critical condition. We hope this accident will be a warning to parents to keep their children away from fires .- Saginuw Valley Republican, 14th.

Body Found.-The body of Charles Grahlow, the missing German, whose mysterious disappearance we mentioned two weeks ago, was found on Sunday morning last in the Tittabawassee River at the ferry about three miles from this city. His body caught against the rope which is stretched across the river .--From all the circumstances there appears to be but little doubt that he lost he less than the propose to keep constantly on han in attempting to cross the river on the logs which were floating down at the time of his disappearance. There were no marks of violence perceivable upon his person.—Saginaw Republican, May 7.

ACCIDEN TO THE STEAMER COLUMBIA .-On Wednesday last, the steamer Columbia when off the Charity Islands in Saginaw Bay, had the misfortune to break her piston rod. The Captain succeeded in making Tawas Bay about fifteen miles AND FAMILY SUPPLIES listant, by the aid of his jib. On the certain they will sell at as low if not lower rates than they have ever been purchased here. following day the steamer was towed to Bay City by the barque Adriatic. It nust have been a very novel sight to see a barque towing a steamboat. We understand from the Clerk, Mr. Russell, that the accident will be repaired and the boat ready for sea again, in the course of the week .- Saginau Valley Republican,

W. L. P. LITTLE & CO., DRUGS & MEDICINES, WISTAR'S Dr. Guysott's Scrofula, or King's Evil, SCIOIUIA, OF KING'S EVIL, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, the Blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, which it may be stack the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not deatroy. The serofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, fifth and filthy habits, the depressing vices, and, shove all, by the vancreal infection. Whatever be its origin, it is hereditary in the constitution, descending a from parents to children unto the third and fourth generation; "indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed to the first and particles in the glands, swellings; and on the surface, eruptions or sors. This foul corruption, which genders in the blood, depresses the energies of life, so that serofulous constitutions, but they have far less power to with-

the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have fir less power to withstand the attacks of other diseases; consequently vast numbers perials by disorders
which, although not scrofulous in their nature,
are still rendered fatal by this taint in the
system. Most of the consumption which decimates the human family has its origin directly
in this scrofulous contamination; and many
destructive diseases of the liver, kidneys, brain,
and, indeed, of all the organs, arise from or
are aggravated by the same cause.

One quarter of all our people are scrofulous;
their persons are invaded by this lurking infection, and their health is undermined by it.
To cleanse it from the system we must renovate
the blood by an alterative medicine, and invigorate it by healthy food and exercise.
Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla.

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and futal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the diorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Enterryz and Sein Diseases, St. Astrony's Fire, Rose, or Environment, Publics, Publics, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Dis-rases, Dropsy, Dyspepsia, Dreility, and, indeed, all Complaints arising from Vitlaranged, all Complaints arising plica viria-rang on Impure Bloom. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in conteminated contents.

AYER'S Ague Cure, FOR THE SPEEDY CUPE OF

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Billous Headache, and Billious Fevers, indeed for the whole class of diseases originating in billary derangement, caused by the Malaria of Miasmatic Countries.

tries.

We'are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders pergal. This "Curs" expet the misematic poison of Favan Axia Acida from the system, and presented to the disease, if laken on the poison of Favan and Acus from the system, and pre-cents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Favan and Acus prevails, every body should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermit-tents is, that it contains no Quinies or injured, expe-quently it produces no quinies or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease. Fever and Agos is not alone the consequence of the missensite poison. A weat veriety of diseasures arise from 15,000 15,600.00 Sarsaparilla BALSAM missmatic poison. A great variety of disorders arise from the invitation, among which are Newsland Bartan Ashma, Polystation, Painful Affection of the Spleen, Hysteries, Pain ex the Bosest, Cale, Paralysis, and Derangement of the Semach, all of which, when originating in this cause, put on the intermilient type, or become periodical. This "Cunn" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and pursons travelling or temporarily residing in the malarious districts. If taken eccasionally or daily while exposed to the infection, that will be excepted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remody affords.
